

Milestone 2

User Journey Documentation

Event Management Platform

Event Organizer User Journey

Creates and manages events end-to-end, from venue booking to post-event reporting.

1. Account Creation and Customization

Registration & Setup

- Create and update my account details.
- Create accounts for team members, guests and vendors.
- Deactivate all stakeholders accounts when needed.

2. Venue Search and Booking

Discover and Shortlist Venues

- Browse through the list of available venue listings.
- Filter or search for spaces based on event criteria and date (e.g. show only available venues on a given date that are in Cairo and meet a specific size requirement).

Submit Venue Applications

- Apply to book a chosen pop-up space.
- View the status of the booking request.

3. Event Planning & Setup

Manage Daily Workflow

- Access daily dashboard summarizing today's events, average positive and negative event feedback, etc.
- Access list of upcoming events and filter them by date.
- Access lists of tasks to complete leading up to the event and filter them by status (Pending, Done, etc.).
- Receive reminders of due tasks.

Budget Management

- Create, edit and view the planned total budget.
- Create, edit, view planned budget decomposition.
- Create, edit, view records of actual expenses made.
- Calculate and view differences between planned and actual budget or expenses.

Design Venue Layout

- Access digital floor plan tools.
- Design the venue layout by dragging and dropping design elements.
- Share the venue layout with the setup team and export the layout design as a picture or PDF file.

Team Members

- View list of staff and filter (part-time, full-time, speciality such as Catering, Seating, Logistics, etc.).
- View staff details (name, age, speciality, etc.).
- View list of staff tasks (to be assigned) and filter them by status (not yet assigned, in progress, done).
- Assign tasks to staff members.
- Track assigned task status.

4. Vendor Coordination

Sourcing and Invoicing

- View the list of vendors and view each vendor's details (vendor name, supplies offered, main location, pricing list, etc.).
- Filter or search for a certain vendor.
- Create and submit sourcing requests to vendors.
- Track vendor delivery statuses.
- Review invoices submitted by vendors.

5. Guest Management

Invitations and RSVPs

- View list of guests and view guests' details.
- Filter or search for a certain guest.
- Filter list of guests by a certain event (or by other criteria such as RSVP status, dietary preference, etc.).
- Send digital invitations to guests.
- View guest RSVP status.
- View guests' dietary preferences.

6. Day-Of Operations

Live Monitoring

- Access the day-of operations dashboard including total number of guests and total number of arrived guests.
- Send live day-of communications to guests.
- View which guests have received and seen the messages.
- Send a follow-up day-of communication to guests who have not yet seen the initial message.

7. Evaluation and Reporting

Post-Event Analysis

- Review post-event feedback collected from guests.
- Generate and export comprehensive reports covering event costs, attendance, and outcomes.

Team Members / Staff User Journey

Operational staff who execute event tasks on the ground, guided by organizer instructions.

8. Profile Access

Authentication

- Log into the platform using credentials provided by the organizer.

9. Task Management & Execution

Track Operations

- View the list of events the team member is participating in.
- Filter the list of events by date.
- View a centralized list of assigned operational tasks (e.g., venue setup, catering, logistics) and filter them.
- Update task completion progress on the daily workflow or task board.

10. Layout Utilization

Review Floor Plan

- Access and view the shared digital floor plan designed by the organizer.

11. Day-Of Logistics

Guest Check-In

- Access the list of guests.
- Filter the list of guests by status.
- Update guests' check-in status.

Vendor Arrival Coordination

- Access the list of vendors associated with each event.
- Mark vendors as arrived upon delivery.

12. Events Dashboarding

- Access the day-of operations dashboard including total number of guests and total number of arrived guests.

Vendors / Suppliers User Journey

External suppliers who receive sourcing requests, coordinate deliveries, and submit invoices to event organizers.

13. Account Access

Authentication

- Log into the platform using credentials provided by the event organizer, or register as a new vendor.
- View and update vendor profile details (company name, supplies offered, main location, pricing list, contact information).

14. Sourcing Request Management

Receive and Review Requests

- View incoming sourcing requests submitted by event organizers.
- View request details (requested items, quantities, delivery date, event location, organizer contact).
- Accept or decline a sourcing request.
- Send a message or clarification note to the organizer regarding a request.

15. Delivery Management

Track and Update Deliveries

- View a list of accepted orders and their associated events.
- Update the delivery status of each order (e.g., Preparing, Out for Delivery, Delivered).
- Log delivery confirmation upon arrival at the event venue.
- Notify the organizer of any delays or changes to the delivery schedule.

16. Invoicing

Submit and Track Invoices

- Create and submit invoices for completed deliveries to the event organizer.
- View the status of submitted invoices (Pending Review, Approved, Paid).
- Attach supporting documents or itemized breakdowns to invoices.
- Receive notifications when an invoice is reviewed or approved.

Guests User Journey

Attendees who receive invitations, confirm attendance, engage during the event, and provide post-event feedback.

17. Invitation Receipt

Receive and View Invitation

- Receive a digital invitation via email or messaging platform.
- View event details within the invitation (event name, date, time, venue, dress code, agenda, etc.).

18. RSVP

Confirm or Decline Attendance

- Respond to the invitation by selecting Attending, Not Attending, or Maybe.
- Submit dietary preferences or special requirements as part of the RSVP response.
- Update RSVP response if plans change prior to the event.
- Receive a confirmation message acknowledging the RSVP submission.

19. Day-Of Communications

Receive Live Event Updates

- Receive day-of messages sent by the event organizer (e.g., directions, schedule changes, welcome messages).
- View message status (received, seen).
- Receive follow-up messages if the initial day-of communication was not seen.

20. Event Check-In

Arrive and Check In

- Present a QR code or name confirmation to staff for check-in at the event entrance.
- Receive check-in confirmation (digital or verbal acknowledgment).

21. Post-Event Feedback

Submit Feedback

- Receive a post-event feedback request from the organizer.
- Complete a feedback form covering overall experience, food and beverages, venue, organization, and open comments.
- Submit feedback through the platform (web or mobile).
- Receive a thank-you acknowledgment upon submission.

Venue Owners User Journey

Property managers who list their spaces on the platform and respond to booking requests from event organizers.

22. Account Setup

Registration & Profile

- Register and create a venue owner account on the platform.
- Set up and update profile details (owner name, contact information, company name).

23. Venue Listing Management

Create and Manage Listings

- Create a new venue listing including name, description, location, capacity, dimensions (m²), available amenities, and pricing.
- Upload photos and floor plans of the venue.
- Set availability calendar (mark dates as available or unavailable).
- Edit or update existing listings (pricing, availability, description, photos).
- Temporarily deactivate or permanently remove a listing.

24. Booking Request Management

Respond to Organizer Requests

- Receive notifications of new booking requests submitted by event organizers.
- View booking request details (organizer name, event type, date, expected number of attendees, special requirements).
- Approve or decline a booking request.
- Send a message or counter-proposal to the organizer (e.g., adjusted pricing, alternative dates).
- View a history of all booking requests and their statuses (Pending, Approved, Declined).

25. Booking Overview

Manage Confirmed Bookings

- View a calendar or list of all confirmed bookings across listings.
- Filter bookings by date range, venue, or status.
- Access organizer contact details for confirmed bookings.
- Receive reminders of upcoming confirmed bookings.

26. Performance & Reporting

Track Venue Activity

- View a summary dashboard showing total bookings, booking rate, and revenue per listing.
- Access historical booking data and revenue reports.
- Export reports for accounting or business planning purposes.
